Riad Balaghi, Moroccan Ministry of Agriculture
- 17:45 Debate & Concluding Remarks** (15 min)
Moderator Ayman Cherkaoui, Special Advisor for Climate Change and Negotiations to the Presidency of COP22/CMP12/CMA1

The Scientific Committee of COP22 Moroccan Presidency invites you to a climate studio conference held on Monday, May 15 from 5 to 6 p.m., for a short debate on our common efforts to enhance the situation of adaptation metrics.

A restitution of the international conference on adaptation metrics held last year in september in Skhirate, Morocco, will open the mini conference, followed by a narrative of climate outcome metrics used by the EBRD, and a presentation of the works of the Global Center of Excellence on Adaptation.

A concrete example of adaptation efforts will then be discussed over the AAA initiative.

We warmly welcome you for a fruitful debate, on behalf of COP22 Presidency.
